CONGRATULATIONS GRADUATES!
Congratulations! You should be very proud: you successfully completed your degree during a pandemic, which is no easy task! I so enjoyed working with you in my classes: your creativity and enthusiasm inspire me, and I wish you every success wherever your path takes you.

Heather Addy
Biological Sciences
“Be true to yourself and own who you are. You are not like anyone else, and that is a good thing. Allow yourself the opportunity to explore and experiment - you are scientists, after all! Some experiments will fail, but personal growth is sure to follow. Just remember: Don’t panic and be sure to bring your towel!”

Jo-Anne Brown
Physics & Astronomy
“Best wishes from the MATH211 team!”

Claude Laflamme
Mathematics & Statistics
“Congratulations on reaching this huge milestone! I hope your tenure at UCalgary was formative well beyond your discipline and has contributed to forming who you are and how you will choose to make an impact in your future communities, whatever they may be.”

Simon Trudel
Nanoscience
“An undergraduate degree is filled with challenges at the best of times, and you all have navigated incredible circumstances. I hope you leave with the confidence to take on whatever comes, and you have my best wishes for success in all of the places you're now setting off for!”

Jeffrey Van Humbeck
Chemistry
CONGRATULATIONS GRADUATES!
Congratulations! You did it. The world needs big minds more than ever; it needs you. Get out there and make a difference; make it a better place for everybody and everything.

Jalal Kawash
Computer Science
“Congratulations and thank you. Thank you for your resilience and thank you for your patience. The end of your degree was an extremely challenging time for all of us, so thank you for persisting and achieving this monumental accomplishment.”

Corey Flynn
Neuroscience
Dear 2021 Geo graduates. Please accept my thanks and admiration for coping so well with the undeniably difficult circumstances of taking courses during the pandemic. You will forever be a special class for this reason! I hope we can connect in person when things have loosened up. Best congratulations again.

Dr. Dave
Geoscience
Science is all about discovering the world and I truly hope your science degree will be a great steppingstone to making that world a better place. Congratulations and best wishes!

Ed Cey
Natural Sciences
Congratulations, Class of 2021! Enjoy this moment and be proud of your hard work, passion and dedication. Good luck in all your future endeavors and stay curious!

Jerrod Smith
Mathematics & Statistics
“Congratulations to all the 2021 Chemistry graduate students, as well as each and every student across the University of Calgary who are graduating this year, especially while successfully navigating this difficult pandemic situation. I appreciate your self-motivation and resilience which have brought you this far. I wish you the best for your future endeavors.”

Dr. V. Thangadurai
Computer Science
CONGRATULATIONS GRADUATES!
“Congratulations on your graduation! I hope that you will cherish your expertise in science and find meaningful ways to explore the wonders of nature. It is also my wish that your aptitude for science will continue to nourish you and the people around you! All the best!”

Rajeev Nair
Geoscience
Our students have worked so hard to pursue their education over the awful COVID times, despite outrageous difficulties. The Natural Science students inspire me and make me feel honoured that I have gotten to be part of their educational journey.

Jason Donev
Natural Sciences
Congratulations! All your hard work and dedication over the years has paid off as you come to the end of a very important chapter in your life. This past year and a half has presented additional unexpected challenges and you met them head-on. Stand tall and proud: this is your day. I wish you happiness and success in all of your future endeavors, wherever life may take you.

Sean Stotyn  
Physics & Astronomy
Massive congratulations, ENSCers! I know that you will go on to do great things in Alberta and beyond. Make us all proud.

Dan Shugar
Environmental Science
“Don’t let what you do be defined by people’s expectations. Make your own choices, take your own chances, acknowledge your own fears, and do your own things anyway.”

Anna Harlick
Physics & Astronomy
CONGRATULATIONS GRADUATES!
“Congratulations Chemistry Grads! Today I invite you to not only celebrate your success, but also look back at the community you've been a part of. You've each grown so much in the past years, and it's been a privilege to be a part of that journey. Step through the challenges of the last year and forward into your identity as both scientists and changemakers.”

Yuen-ying Carpenter
Chemistry
Dear Geoscience graduates - congratulations on earning your degree! As you step out as a new graduate, a quote from Michelle Obama comes to mind: "When you’ve worked hard, and done well, and walked through that doorway of opportunity, you do not slam it shut behind you. You reach back and give other folks the same chances that helped you succeed." Keep in touch and let us know how you are making the Earth a better place to live! Encourage the young people in your life to learn about our planet. Best wishes for the future.

Jennifer Cuthbertson
Geoscience
Congratulations to you on completing a significant journey in your life story! I hope that you have learned something about who you are and importantly, who you can become. Be open to new opportunities and challenges - you will be amazed at what you can achieve if you try. I have thoroughly enjoyed my interactions with you over the past years and I am grateful for all that you have taught me. Never stop learning and stay curious about the world around you!

Mike Wieser
Physics & Astronomy
You have worked incredibly hard for this proud moment. Congratulations! The world around you is changing and you are a beacon that will drive this change as you embark on the next stage of your life. Keep shining and spreading your light!

Usman Alim
Computer Science
Congratulations on your graduation and academic accomplishments! It has been so meaningful to learn and discover with you - through discussions in lecture, making observations and analyzing data in labs and tutorials, and exploring biodiversity in the field. Thank you for sharing your enthusiasm, creativity, and knowledge. I look forward to hearing about the positive impacts you continue to make at and beyond the University of Calgary.
