The Department of Physics and Astronomy is inviting applications from undergraduate students for summer studentship positions in the Physics Junior Labs, from May 13 through August 31, 2019.

The job parameters are numerous and widely varied. This is a unique opportunity for undergraduate students to gain experience and develop skills while assisting with the development of undergraduate lab exercises and working in the teaching labs. Duties include programming, assisting with teaching lab development, writing lab documentation and other projects as assigned.

Key skills we are looking for include:

- Strong writing skills
- Ability to think critically and take initiative
- Strong communication skills
- Ability to collaborate

A complete application will include a Curriculum Vitae (CV), a cover letter and a minimum of two letters of reference.

To apply for this summer position, please submit an application via e-mail to phasoffice@ucalgary.ca.

The deadline for application submission is Friday, May 03, 2019.
