Policy on Charges for Petrographic Sample Preparation
Effective Sept 15, 2009

The following charges will be levied against all work done in the Petrographic lab. The cost of samples prepared for teaching will be absorbed by the Department. These charges are necessary to offset a portion of the cost of supplies and chemicals. Users should supply Mickey with an account number prior to picking up completed jobs.

The cost of samples prepared for GLGY 510 students must also be covered by a research account number. Instructors who supervise GLGY 510 students may apply their Department stipend for in-kind services to a maximum of $1250.00 per year.

For Department members

1. Standard thin section $5.00
2. Polished Mounts $5.00
